PROFESSIONAL SUMMARY

Associate BI Developer with hands-on experience in Business Intelligence development using Microsoft SQL Server, SSAS Multidimensional, MDX, and Power BI. Experienced in writing SQL stored procedures, supporting data warehouse workflows, and building analytical dashboards for sales, finance, HR, and service functions. Familiar with Microsoft Dynamics NAV/Business Central data structures and database migration. Developing skills in Python, machine learning, and analytical databases including ClickHouse.

TECHNICAL SKILLS

Databases & SQL: Microsoft SQL Server, T-SQL, Stored Procedures, Querying, Data Transformation

Business Intelligence: Power BI, DAX, Power Query, SSAS Multidimensional, MDX, Data Modeling, Cube-Based Analytics, Dashboard Development

Data Engineering: ETL, Data Warehousing, Data Integration, Data Validation, Microsoft Dynamics NAV/Business Central Data

Programming: Python, SQL

Analytics & AI: Data Analysis, Machine Learning Fundamentals, Generative AI Concepts

Tools & Platforms: SQL Server Management Studio (SSMS), Power BI Desktop, Jet Data Manager, ClickHouse, Docker, Git, VS Code

PROFESSIONAL EXPERIENCE

Associate BI Developer | Agile Solutions Pvt. Ltd., Kathmandu, Nepal | April 2025 – Present

- Develop and maintain Business Intelligence solutions using SQL Server, SSAS Multidimensional, MDX, and Power BI.
- Write and optimize SQL stored procedures for data warehouse transformations and analytical data preparation.
- Build and support SSAS Multidimensional cubes with Jet Data Manager for business reporting and multidimensional analysis.
- Develop Power BI dashboards and reports for sales, service, spare parts, human resources, and finance.
- Work with Microsoft Dynamics NAV and Business Central data in database migration and reporting workflows.
- Perform data validation and troubleshooting to keep source databases, analytical models, and reports consistent.
- Identify improvements to reporting workflows and analytical solutions for business users.

KEY PROJECTS

BI Implementation – Gorkha Brewery Pvt. Ltd. (Carlsberg Group)

- Developed SSAS Multidimensional cubes and MDX calculations powering sales and material requisition dashboards.
- Wrote SQL stored procedures to extract, transform, and load ERP data into the data warehouse using Jet Data Manager.
- Translated business requirements into data models, and handled data validation and SQL Server maintenance for data integrity and query performance.

BI Implementation – Agni Group (Mahindra Nepal)

- Built SSAS Multidimensional cubes with dimensions, measures, and MDX calculations for sales, spare parts, and service analytics.
- Developed SQL stored procedures for data warehouse transformations on Microsoft Dynamics NAV/Business Central data.
- Created dashboards on top of the cubes, and performed data validation and troubleshooting to keep reports consistent with source data.

HRMS BI Implementation – NMB Bank Ltd.

- Designed an interactive Power BI HR analytics dashboard tracking workforce demographics, employee turnover, and appraisal performance.
- Built complex DAX measures and optimized data models with Power Query.

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSc CSIT)
Bhaktapur Multiple Campus | February 2023 – February 2027 (Expected) | Currently in 8th semester
